

Performance Profile:

- Silicone like—very light feel
- Stable emulsions even under extreme pH
- Make-up removal efficacy
- Reduced whitening effects of AP/ Deo Stick
- High spreading properties make it ideal for depilatory lotions.
- Gives positive cleansing efficacy when incorporated into emulsion based cleansers
- Distinct sensorial improvement of AP sticks

Market Stick:
Only silicone emollients

Cognis Stick:
Use of spreading cascade

Brief Overview:

- | | |
