BASF
The Chemical Company

Plantapon® LGC Sorb is an anionic surfactant that combines the characteristic mildness of APG® with excellent foaming and sensory properties, making it especially suitable for use in mild rinse-off applications.

Benefits

- Offers both mild cleansing and rich, dense foam
- High HLB surfactant
- Efficient at low use levels
- Ideal as the primary surfactant for mild wash off applications
- Foam behavior is independent of pH
- Low pH stability – performs well in salicylic acid formulations
- EO/PO free
- Essential component of anionic SWOP formulations
- TSCA approved
- Recommended for concepts according to:
